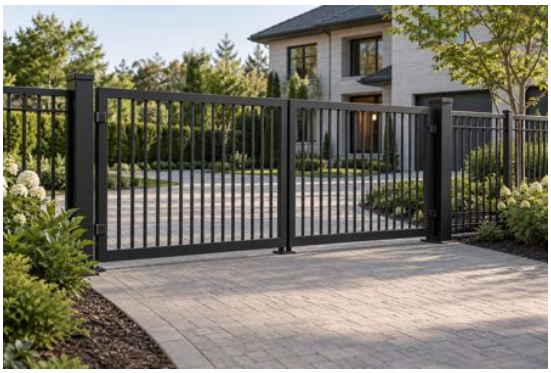
Gates

Gates built in the same profiles and colours as the fence, from garden walk gates to sliding drive gates. Drive gates are prepared for automation.



Standard specification

Walk gates	0.9–1.2 m (36"–48") openings
Double swing	3.0–6.0 m openings
Sliding & cantilever	Up to 8 m openings
Hardware	Adjustable hinges, latches, drop rods
Automation	Prepared for swing and sliding operators
Materials	Aluminum or steel to match the fence

Indicative dimensions. The final specification is confirmed in your quotation.

Styles in this range

Walk Gate

A single-leaf gate for paths and garden entrances, built in the same profile as the fence.

36"–48" openings · Self-closing hinges · Lockable latch

Double Swing Drive Gate

A two-leaf drive gate for vehicle entrances, prepared for automation.

3–6 m openings · Drop rod and centre stop · Operator-ready

Sliding Drive Gate

A track-guided sliding gate for entrances where there is no room for a swing.

Up to 8 m openings · Ground track and guide rollers · Operator-ready

Cantilever Gate

A sliding gate carried on rollers behind the opening, with no track across the drive.

No ground track · For uneven or snowy ground · Operator-ready

Aluminum Louvre Gate

A walk or drive gate with angled blades to match louvre privacy fencing.

Matches louvre panels · Walk or drive widths · Aluminum frame
